

Frontier™ Series

Self-Contained Breathing Apparatus

North Frontier Series SCBA

Frontier™ Series Self-Contained Breathing Apparatus

Features to fit your worksite at a price to fit your budget

North Frontier™ SCBA is as easy to use as it is rugged. Designed for the industrial user, this self-contained breathing apparatus (SCBA) features uncomplicated components that are dependable and easy to maintain. The North Frontier is available with either a tight fitting facepiece or a hood – bringing you the workplace flexibility you need and the options your workers desire.

Facepiece or Hood? You decide – North offers both!

North Frontier is available with either a tight fitting facepiece or hood. Both provide the same high level of protection you need and expect from your SCBA*. The facepiece features a 200° field of vision polycarbonate lens, providing impact protection for the face and eyes**. The clear hood is quick and easy to clean, ideal for workers who wear prescription eyewear. The PVC hood material provides superior chemical resistance.

* The OSHA and CSA assigned protection factor for both the hood and the facepiece is 10,000, the highest protection factor available.

** The North Frontier full facepiece meets ANSI Z87 for high impact protection

North Frontier SCBA – The economical choice when budgets matter most

Don't pay for "bells and whistles" you don't need and will never use. This is the ideal model for the occasional user of SCBA units (i.e. Emergency Escape "Wall Hangers") or if durations are limited. Add in our low price and you have the best value on the market.

Features:

- Choice of facepiece or hood in Small or M/L
 - Facepiece
 - PVC hood – ideal for chemical exposures
- 30 minute, low pressure aluminum cylinder
- CDV: Compact Demand Valve
- Flow Control By-Pass Valve

Applications:

- OSHA compliance for all SCBAs except fire fighting and CBRN applications
- HazMat Emergencies ("Wall Hanger")
- Confined Space
- IDLH atmospheres

Smallest Demand Valve on the market.

Crawling into tight confined spaces just got easier. This featherweight demand valve is the smallest, most compact demand valve on the market, yet heavyweight on performance.

If you need any further information on the above products, please contact North Customer Service. Please visit us on the web at www.northsafety.com.

actual size

Simple, Rugged and Economical

Flexibility to choose what's right for your worksite

FACEPIECE OPTION

Features	Benefits
• Hard coated polycarbonate lens	• High impact eye protection • Scratch Resistant for longer life
• 200 degree field of vision	• Wide viewing area for safer use • Anti-claustrophobic
• Lightweight	• Comfortable, reduces user fatigue
• 2 overlapping sizes	• Reduces inventory
• Small and Medium/Large	• Comfortably fits most adults
• Oral/nasal cup standard	• Limits re-breathing of exhaled air (CO ₂) so the user does not tire quickly
• Four point headstrap	• Keeps the facepiece secure without interfering with hard hats or other safety helmets

HOOD OPTION

Features	Benefits
• Quick and easy to put on	• Fast donning during emergencies when you need it most • Reduces training requirements
• Use with prescription eyewear	• No special optical inserts needed • Good vision in emergency
• Clear hood material	• Anti-claustrophobic • Emergency personal can quickly identify the wearers.
• Small and Medium/Large	• Comfortably fist most adults
• 2 overlapping sizes	• Reduces inventory
• PVC material	• Superior chemical resistance

So small you wont know it's there

COMPACT DEMAND VALVE

Features	Benefits
• Smallest demand valve on the market	• Fitting into tight spots is no problem
• Lightweight	• Will not pull down on facepiece
• Side mounted	• Out of the way, will not interfere with your line of vision

The Best Value in SCBA Compliance

What to know in an emergency

PRESSURE GAUGE & ALARM

Features

- Chest Mounted Pressure Gauge
- Waterproof
- Luminous dial

Benefits

- Easy access for quick and easy check
- Works in all environments, including Decon showers
- Easy to read, even in limited light

- Simple, chest mounted whistle air alarm

- Fool proof, easy to hear, even in noisy environments (min 90 dB)

The backbone of your SCBA

LIGHTWEIGHT HARNESS ASSEMBLY

Features

- Composite backplate
 - Rugged
 - Lightweight
 - Ergonomic design
- Nylon harness

Benefits

- Holds up to the harshest work environments
- Comfortable, even during long periods of use
- Comfortable, even when worn for long hours
- High chemical resistance
- Economically priced

Simplicity & dependability, the two things you need most in a reducer

FIRST STAGE REDUCER

Features

- Simple piston design
- No adjustments required
- Automatic, self seating pressure relief valve

Benefits

- Less complicated, less moving parts
- No guessing or worry about getting the right setting
- Protects downstream low pressure components

Warranties: North products are covered by and subject to the terms and conditions of the North Safety Products Limited Warranty that appears in our annual price list. The North Safety Products Limited Warranty is the only written warranty of any force and effect, and all other written warranties are disclaimed in their entirety. In no event shall North Safety Products or any of its authorized dealers be liable for any damages in excess of the purchase price of the relevant product. This limitation applies to damages of any kind, including but not limited to direct or indirect damages or other special, incidental, exemplary or consequential damages, whether arising out of the use or inability to use the product, even if we or any of our authorized dealers has been advised of the possibility of the damages or any claim by any other party. Servicing of any product with parts not approved by us will void the warranty and may result in loss of any certification or approval applicable to the product.
